

Apps	Feature	Input	Output	Technology	Concept
GoSkills	Mobile learning, gamified content, custom course creation, reporting, analytics, and performance tracking	User profiles, course content, learner assessments	Certificates, progress reports, personalized learning paths, course completion data	Cloud-based platform with API integrations (e.g., HR tools)	Gamification, mobile-first learning, personalized learning
360Learning	Collaborative learning, course authoring, personalized learning paths, social learning capabilities	User data, created courses, team/learner data	Custom training plans, completion reports, feedback loops	Cloud-based platform, social tools	Social learning, collaboration, team learning, peer-based education
Absorb LMS	Course management, e-learning tools, mobile learning, gamification	Learner information, content uploads, assessments	Progress tracking, certificates, feedback	SCORM-compliant, API integrations, mobile platform	Gamification, mobile learning
Axonify	Microlearning, personalized learning paths, employee engagement tools	User preferences, skill gaps, learning behaviors	Learning content, engagement scores, reports	Cloud-based, AI-powered content	Microlearning, gamification, personalized learning
Canvas LMS	Course authoring, grading, assignments, assessments, social learning	User data, course materials, assignments	Grade reports, progress tracking, student interactions	Cloud, open-source integrations	Collaborative learning, social learning
Continu	Personalized learning paths, user-generated content, content curation, reporting	User preferences, company goals, learning content	Progress reports, personalized learning paths	Cloud-based, mobile-enabled	Personalized learning, social learning
D2L	Comprehensive learning tools, social learning, video-based learning, content curation	Learner data, course content	Customizable learning paths, feedback, assessments	Cloud, integrations with third-party tools	Personalized learning, video learning
Degreed	Learning and development tracking, content curation, skill tracking	User activity, learning content, performance data	Skills mapping, personalized learning journeys, certifications	Data analytics, cloud-based system	Continuous learning, skill development
Docebo	LMS features, social learning tools, gamification, mobile learning	User information, learning content, assessments	Certificates, completion reports, personalized learning paths	Cloud-based platform, AI-powered content recommendations	Social learning, gamification
EdApp	Mobile-first micro-learning, gamification, content creation tools, progress tracking	User data, learning goals, content uploads	Micro-lessons, engagement reports, progress analytics	Cloud, mobile learning	Microlearning, gamification
EdCast	Content curation, micro-learning, personalized learning experiences, social learning tools	User data, company objectives, learning content	Curated content feeds, learning recommendations	Cloud-based, AI tools	Knowledge sharing, personalized learning
Juno LXP	Personalized learning paths, content curation, AI-driven learning recommendations	User preferences, organizational needs, content	Learning content suggestions, personalized paths	AI-driven platform, cloud-based	Personalized learning, AI-driven recommendations
Learn Amp	Learning and development tools, skill development tracking, social learning	User profiles, company learning objectives	Learning progress tracking, engagement scores	Cloud-based platform, API integrations	Social learning, skill development
LearnUpon	Course creation, learner management, mobile access, reporting tools	Learner data, content uploads	Training progress, certificates, feedback	Cloud-based, integration-friendly	Mobile learning, enterprise-scale training
LinkedIn Learning	Extensive course library, certifications, personalized recommendations	User interests, professional profile	Personalized course suggestions, certificates	Cloud-based, LinkedIn integration	Continuous learning, professional development
Litmos	Course management, gamification, reporting, mobile learning	User data, course content, assessments	Certificates, completion reports, feedback	Cloud-based, mobile access	Gamification, mobile learning
TalentLMS	LMS tools, gamified learning, mobile learning, automated training flows	User profiles, learning content, assessments	Certificates, progress tracking, personalized learning journeys	Cloud-based platform, mobile app	Gamification, mobile learning
Tovuti	Course authoring, certifications, social learning, reporting	User data, content uploads, course feedback	Learning progress, certificates, analytics	Cloud-based, API integrations	Social learning, gamification
Udemy Business	Course library, learning paths, certification, reporting	User profile, course selection	Personalized learning suggestions, certificates	Cloud platform, integration tools	Continuous development, enterprise learning
